## Module Guidelines

---

The Crimeline Road

## Introduction

You're the talk of the town. Your detective skills are unparalleled and you are summoned to solve a Murder Mystery. Get ready for one of the most challenging and captivating events that Science Bee '19 has to offer. Participants will be tested on their probing, team work and time management skills in this nerve wrecking situation.

The murderer is on the run and it's only you who can now take down the sinner. No one knows who's going to be the next target or when's the next strike? Do you love the adrenaline rush that this chaotic plot is giving you? Want to have a thrilling experience? Well then you won't get a better opportunity than this. Gear up for this year's Crime Line Road at National Science Bee '19!

## Procedure

Each team will get to:

- Explore the case via a video and handouts.
- Observe and examine the crime scene
- Interrogate the suspect with acute attention to the details e.g. physical appearance.
- Look for Finger prints or any visible hint that would lead to conclusion.
- Look for clues and analyze police reports
- Interrogate and grill the suspects

Teams will be provided details of the deceased such as:

- Personal and professional life.
- Habits/ Hobbies (Routine

- Work and personal relationships

After thoroughly going through the collected evidence, the participants must determine the:

- What
- Who
- How
- Where
- When

Each team would be required to make a complete reasoning based report in the wake of investigation which would include details on the murderer, how and why the murder was carried out, the weapon used if anytime of the murder and what led them to the conclusion.

The participants would be short listed on the basis how effective and accurate the report was and in the next round they'll present the report in front of Jury (Courtroom). The team with a report in concurrence with evidence and proper breakdown and presentation of evidence will be crowned as the winner.

## Rules and Regulations

- Teams can consist of 3-5 members
- Teams will be awarded points out of 15.
- Participants will be allowed to use phone but they shouldn't share content with other teams as to avoid plagiarism
- Every team will be provided equal amount of time to interrogate the suspects. Following the time constraint is a must. Failure to do so may lead to disqualification.

- The decisions and evaluation of Module Heads and Ushers on matters during the event are fair and final and are to be respected.
- Damaging anything belonging to the building would lead to strict disciplinary action.
- Questions related to the investigation are to be asked only from the ushers at the crime scene.
- The investigation should only be carried out in the specified area. Participants may not stroll to another place during their time of solving the case in any case.
- The participants will be given sufficient time which is decided to be 1 hour to write and submit their report.
- Participants will be judged and awarded points on the basis of their report, evaluations made on crime scene and how'll they present their case in front of the Jury
- Detection of any sort of plagiarism or contact with other teams may lead to strict disqualification.
